

Dear Defined Benefit Program Member:

Thank you for your inquiry regarding the consolidation of your benefit coverage under the Defined Benefit (DB) Program. This “consolidation” allows a member of the DB Program to receive credit under the DB Program for eligible service that was originally covered under the Cash Balance (CB) Benefit Program. In order to do this, you must:

- Be an **active** member of the DB Program
- Have **ceased all CB service** within the California public school system;
- Provide written certification from all former CB Benefit Program employers that you are no longer performing service covered under CB
- Provide written certification from your *current* employer that you are actively performing creditable service under the DB Program
- Provide a written request to consolidate benefits using the *Request to Consolidate Benefits* (CB 263)
- Understand that under a consolidation of benefits, credit for service originally covered under the CB Benefit Program may be prorated to ensure that you receive credit under the DB Program only for the service that can be covered by the available CB Benefit Program balance
- First apply your CB Benefit Program account balance to the consolidation of your benefits under the DB Program. The remaining account balance, if any, may be applied to the cost of other service you are eligible to purchase under the DB Program
- Be aware that your service credit under the DB Program may not exceed 1.000 for any one school year. For purposes of this limitation, the added service credit from the consolidation is applied to the year in which the service was performed, and does not affect your service credit **total** for the **current** year.

It is important for you to remember that once the consolidation of benefits is complete:

- ✓ You will no longer be eligible for a benefit from the CB Benefit Program; and,
- ✓ No funds will remain in your CB Benefit Program account.

There is a difference between the contribution rates under the DB and CB Programs. In order to consolidate benefit coverage under the DB Program, the difference between the contribution rates must be reconciled. This is likely to require you to pay additional monies if you wish to receive the maximum amount of service credit that can be added to your DB account. Alternatively, you can choose to receive only the service credit amount that your CB account will buy, rather than the maximum you could receive. Funds in your CB account must be applied to the consolidation of your coverage under the DB Program.

If you wish to proceed, please complete the attached *Request to Consolidate Benefits* and the *Cash Balance Benefit Program and Defined Benefit Program Employment Certifications*. Once the forms are received and eligible CB service is verified, you will receive an estimate of the cost to consolidate benefits and any additional contribution amount required.

Please note: If you worked for more than one employer while covered under the CB Benefit Program, you must complete a *separate* CB Employment Certification for **each** employer. Additionally, a DB Employment Certification must be completed by the employer for whom you are **currently** performing creditable service under the DB Program. Copies of this form are acceptable, but each copy must contain original ink signatures in all areas requiring a signature.

Once all required forms have been completed, including certifications from *all former* CB employers, the forms should be mailed directly to:

California State Teachers' Retirement System
P. O. Box 15275, MS-20
Sacramento, CA 95851-0275

Upon verification of service and eligibility, you will receive an estimate of the cost to consolidate your benefit coverage under the DB Program. ***Please do not send any money to CalSTRS until you are instructed to do so.***

If you have questions, please call the CalSTRS Call Center at (800) 228-5453.
