The purpose of this item is to provide the Committee with the portfolio asset allocation, the risk profile of the portfolio, the risk budget of the public asset classes, and critical financial market updates to assist in their oversight of the CalSTRS Investment Portfolio.

### **Executive summary**

This report is divided into three sections. First, Investment Portfolio Risk Report produced by the Risk team under the leadership of Josh Diedesch, portfolio manager. Second, a PowerPoint presentation by the Chief Investment Officer (CIO) on key charts within the Risk Report, as well as current financial market conditions and potential risks on the horizon.

Prior to the meeting, the PowerPoint presentation will be posted on the CalSTRS.com website. Lastly, the CIO and staff will provide a short verbal update to the Investment Committee on significant investment market news or movements. In keeping with the Fiscal Year end investment reporting, two additional reports have been provided as part of the CIO Report, Attachment 1, the Portfolio Restrictions Cost Analysis Report (formerly the Divestment Cost Report) and Attachment 3, the Special Mandates Policy Annual Report.

## **Background**

While this report has evolved over the years, it has been a mainstay of the Investment Committee agenda to help fulfill the Committee’s fiduciary duty to closely monitor the risk and investment allocation of the commingled Trust Fund.
